

Using Canva for Social Media Visuals, Videos and Infographics for Business

In this course participants will learn how to use Canva. Canva is an online graphic tool that is used to create designs for various categories. This course starts with an introduction to Canva and exploration of Canva Dashboard. Then learners will gain hands on skills for the creation of animated videos, social media visuals (Facebook Cover, Facebook Post, YouTube Thumbnail, YouTube Channel Art, Instagram Posts) for the business and infographics. Infographics are used to visually share complex numeric or written information in one glance. In today's business environment, visuals pose an important role in sharing information, such as posts, Videos and Infographics either shared in Social Media for promoting products/services or embedded in PowerPoint presentations to express ideas and numbers in a more visual way. Without the need for design skills, software such as Canva allow professionals to be creating and improve their Social Media communication, and presentations.

CODE: ED25A15
